Android Auto

Quick Start Guide

PART NUMBER: UD170-KU-003

ANDROID AUTO

Android Auto™ is designed to help you stay focused on the road. It equips your vehicle's radio with display and control functions for compatible Android™ phones when they're plugged into your Kia's USB port and the Android Auto app has been downloaded to the phone.

Android Auto provides access to a variety of compatible apps, available by visiting Google Play™ on your Android phone.

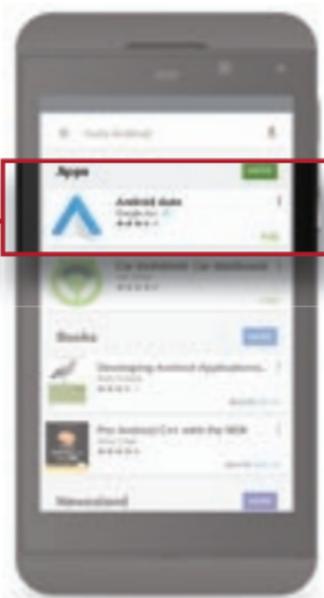

REQUIREMENTS

- Android phones with Android 5.0 Lollipop or higher.
- It is recommended to always update your phone to the latest OS release
- Use the USB cable provided with your phone

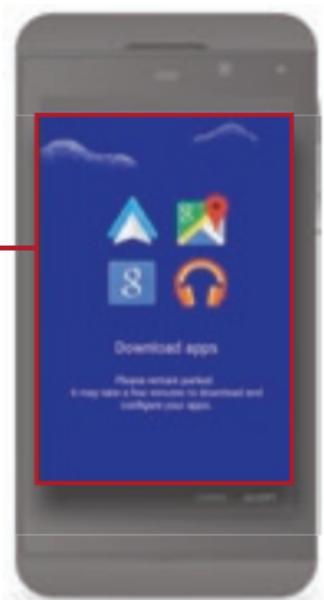

© 2017 KIA MOTORS AMERICA, INC. ALL RIGHTS RESERVED.
CONSUMER - ROADSIDE ASSISTANCE: 1-800-333-4KIA (4542)

For any questions regarding the features of your vehicle, please contact your preferred Kia dealer or contact Kia Consumer Affairs at (800) 333-4KIA (4542)

1. From your compatible device, download the **ANDROID AUTO** app from Google Play.

2. Launch the **ANDROID AUTO** app on the phone and follow the on-screen instructions to complete the setup.

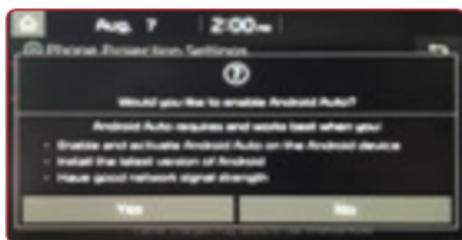

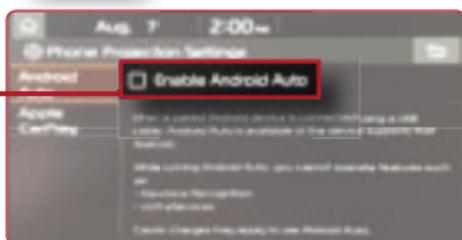

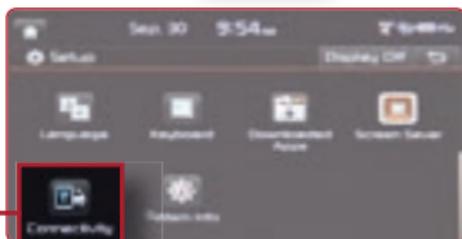

SETTING UP ANDROID AUTO

3. Press the **SETUP** hard key.

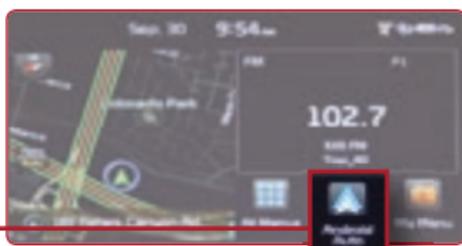

4. Tap the **PHONE PROJECTION** or **CONNECTIVITY** button on the home screen, then select **ENABLE ANDROID AUTO**

5. Connect the device to your vehicle's USB port with the cable that was provided with your phone.

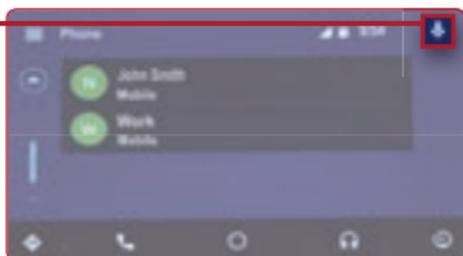

6. From the home screen, tap the **ANDROID AUTO** button.

Android Auto uses graphical cards on your vehicle's home screen to keep you up to date with functions that are taking place through your phone, such as: messages, phone calls, navigation, music and more.

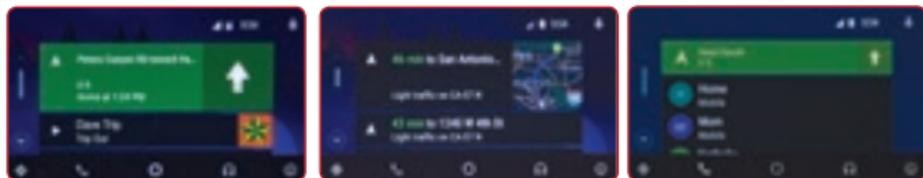

1. Tap the **MICROPHONE** button in the upper right corner of the Android Auto home screen, or use the steering wheel controls to access **Google Voice Recognition™**. Use voice recognition to: send or reply to texts, make phone calls, navigate to a destination, and play music.

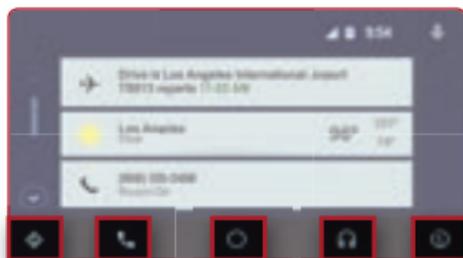

2. **ANSWER** and **END CALL** buttons are available on the steering wheel controls for use with incoming phone calls.

3. **Google Now™** offers information about current weather, appointments, travel routes, app status, and call history.

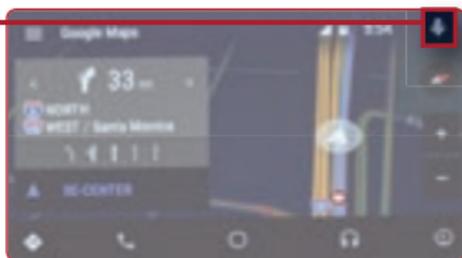

4. Buttons along the bottom of the screen provide easy access to many features.

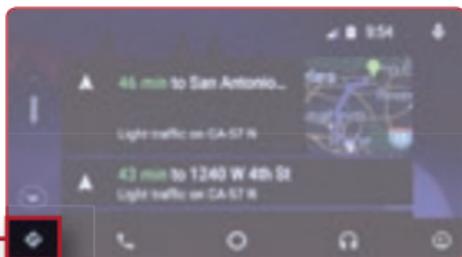

HOW TO USE GOOGLE MAPS INSIDE ANDROID AUTO

Access the features of **Google Maps™** and have voice guided navigation to your destination.

1. Tap the **MICROPHONE** button on the vehicle's Android Auto screen, or use the steering wheel controls to begin Google Voice Recognition.

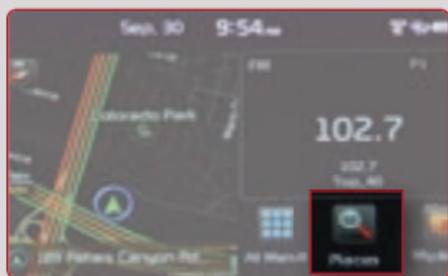

2. Say "Navigate to [address]" to begin navigation.
3. Or, start navigation directions with Google Maps from your Android device.
4. On the vehicle's Android Auto home screen, press the **MAP** button at the bottom left corner to view navigation.

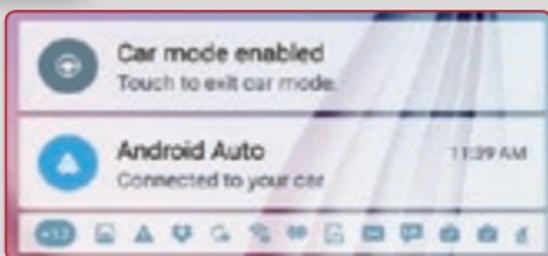

QUICK TIPS

Android Auto unavailable on the console

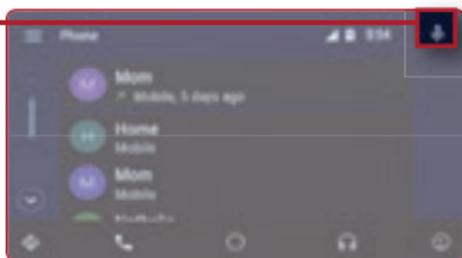

- ✓ Ensure that **Car Mode Enabled** is activated. Confirm Android Auto App is downloaded and launched on phone.

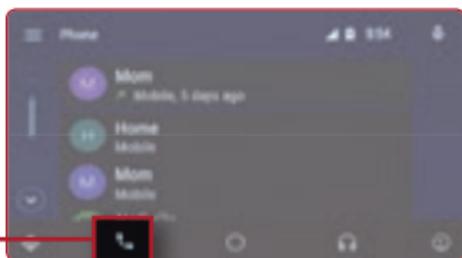

Make calls, return calls, and listen to voicemail.

1. Tap the **MICROPHONE** button on the vehicle's Android Auto screen, or use the steering wheel controls to begin Google Voice Recognition.

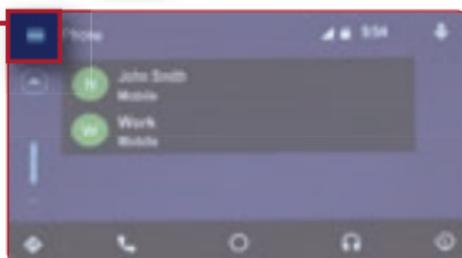

2. Say "Call [Name or number]" to dial.

3. Or, tap the **PHONE** button on the Android Auto home screen

4. Use the **MENU** button at the top left for a dial by name directory, voicemail access, call history, or to view missed calls.

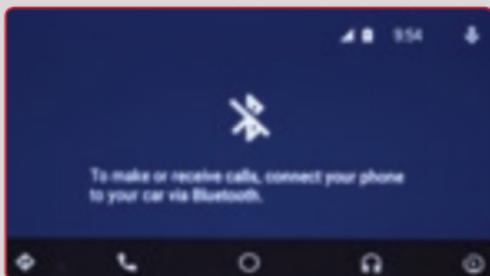

QUICK TIP

- ✓ Pressing the green call button on the steering wheel for two seconds will call the last person contacted.

QUICK TIPS

Unable to Make Phone Calls

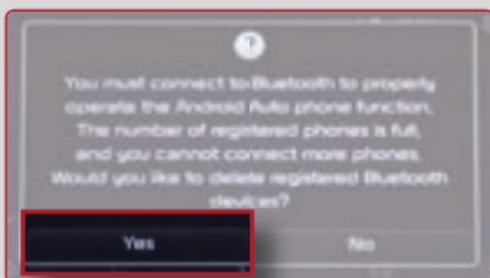

- ✓ If this message is shown, your phone needs to be paired with your vehicle through Bluetooth®. If five phones have been paired to the vehicle in the past, it is necessary to delete a paired phone in order to pair your phone.

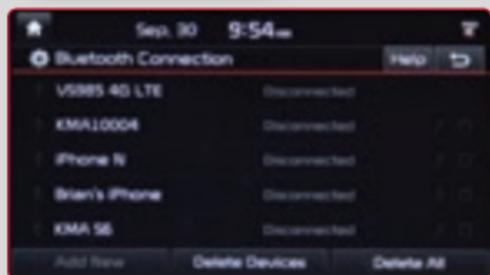

1. Press the **PHONE** button on the steering wheel.

2. Select **YES** on the head unit screen.

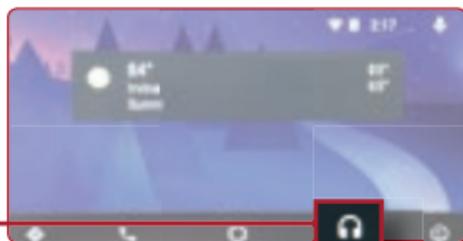

3. Once you are on the Bluetooth® connection menu, you may delete one or more devices.

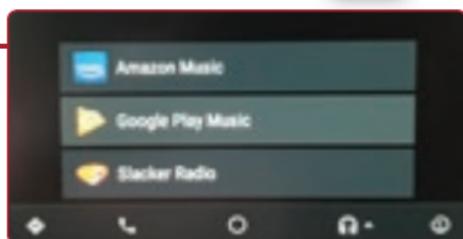

Listen to music from your **Google Play Music™** app and other compatible third-party services.

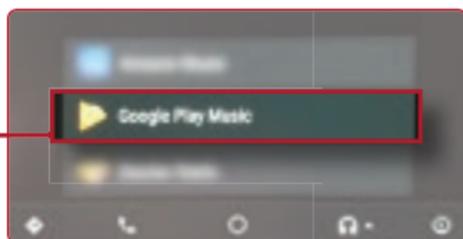

1. On the Android Auto home screen, tap the **HEADPHONES** button once to open the last playing music app.

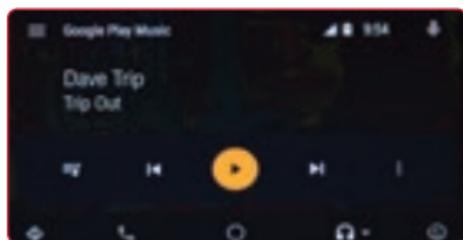

Press a second time to display the list of all supported music apps.

2. Select the desired music app.

3. Once an app is selected, song information will be displayed on the screen.

QUICK TIP

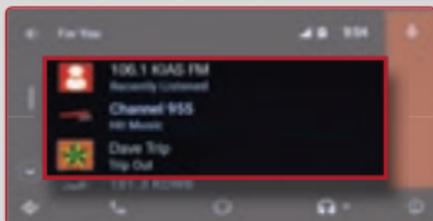

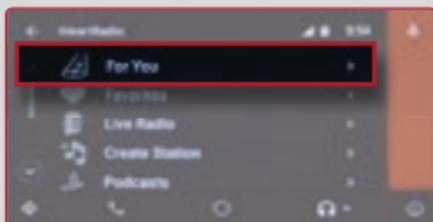

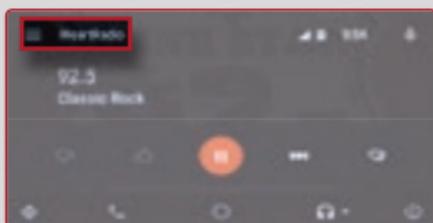

Voice Recognition with Music Apps

- ✓ Android Auto may not support voice recognition for some third party music apps.

QUICK TIPS

When Audio Cannot Be Heard Through Third Party Apps

1. Tap the music station's name.
2. Select a category option.
3. Select a station or song. This resets the music stream.

ANDROID AUTO

Distracted driving can result in a loss of vehicle control. Never use a handheld device or vehicle system that takes your focus away from safe vehicle operation. Navigation is for informational purposes only, and Kia does not make any warranties about the accuracy of the information.

- Apps use your smartphone data service; normal cellular service rates will apply.
- Android Auto features may operate differently than on your phone.
- Compatibility with third party apps is not guaranteed.
- Message and data rates may apply when using Android Auto.
- Android Auto relies on the performance of your phone. If you experience performance issues: close all apps, restart your phone, and disconnect and reconnect your phone.
- Use of the USB cable that was provided with your phone is recommended.
- When Android Auto is active, your in-vehicle voice recognition system will be disabled and all requests will be initiated using Google voice actions.
